OBJECTIVES

To find a challenging position in the information technology field where I can apply my skills and knowledge in a productive, innovative, team-oriented atmosphere with career advancement opportunities.

SUMMARY OF QUALIFICATIONS

- n A+ Certified in PC Hardware, PC Software, and Network Infrastructure
- n Knowledge of IT network design, implementation, and maintenance, including hardwired and wireless infrastructure.
- n Emphasis on security, including firewalls, intrusion detection and prevention systems, wireless network security, encryption and authentication, penetration testing, security assessment, and auditing.
- n Efficient in troubleshooting systems and working with others to mitigate problems.
- n Extremely patient and communicative in working with and training others, including 6+ years teaching experience.
- n Experienced in data recovery.
- n Extremely knowledgeable in all current PC hardware and most server hardware
- n Extensive knowledge of the Windows operating systems (XP, Server 2003, Vista) and most software, with superb troubleshooting abilities.
- n Through knowledge of Windows networking, hardware and software, sever-side and client-side, including Active Directory.
- n Proficient in various operating systems and computing environments (Windows desktop and server operating systems, most versions of Linux, some knowledge of Cisco).
- n Exceedingly adept in office and productivity software (Microsoft Office [Word, Excel, Publisher, Outlook, Access, PowerPoint], Adobe & Macromedia software [Photoshop, Illustrator, Flash, Dreamweaver], and more).
- n Highly motivated, versatile, quick learner with a never-ending thirst for knowledge and advancement of skills.

WORK EXPERIENCE

- 1996 – Present
Self-employed as CEO, marketing manger, web designer, and network administrator of Don't Fret Productions and sister company Fretless Finger Guides. See www.dontfret.com
- 2000 – Present
Director and Teacher of the Providence Point Computer Club. This involves writing curriculum, classroom materials, and teaching approximately 80 students weekly in intermediate computer skills, covering a variety of topics.
- 2000 – Present
Self-employed computer technician and network consultant with a client base of over 300 satisfied customers. Have built and maintained PCs and servers, and designed, installed, secured, and maintained hardwired and wireless LANs.

COMMUNITY ACTIVITIES

- Volunteer consultant for the Bellevue, WA Police Department, helping to implement technology and database services for Operation ChildSafe under Officer Rob Wood.
- Perform on-site computer repair for local senior citizens.

MEDIA APPEARANCES

- Featured on 21 Century Lives with Peter Jennings May, 2000
- Featured on MSNBC, June, 2000
- Featured on Extra!, June, 2000
- Featured Guest on Jane Pauley Show, August, 2005
- Featured on PBS's BizKid\$, Fall 2007
- Numerous national radio interviews

PATENTS AND PUBLICATIONS

Applied for first patent 12/10/96 on a stringed instrument finger positioning guide and method for teaching students to read music. Was awarded utility patent # 5,920,023 on 7/6/99.

Applied for second patent on 5/15/01 on a digitally controlled interactive user interface finger positioning guide for stringed, necked instruments. Was awarded utility patent # 6,452,081 on 9/17/02.

Currently assimilating and editing the entire library of weekly curriculums, classroom materials and handouts I've written for the Providence Point Computer Class over the last 7 years into a "Computers for Seniors" book that I hope to publish in the near future.
